

Cyber threats are at the door. Bitsight can help keep them out.

Bitsight is a cybersecurity ratings company and partner of The Hartford that helps manage cyber exposure across an entire attack surface. The company provides an objective, data-driven view of cybersecurity program health to help assess, monitor, prioritize and communicate cyber risk.

Identifying cyber risks with Bitsight.

In this ever-evolving cyber threat environment, the best protection from a cyber incident is cybersecurity resiliency. That's why we've curated partners and services to help businesses protect themselves from cyber incidents as well as navigate and respond effectively if one happens.

Cyber insureds of The Hartford have access to:

The Bitsight Security Ratings Report – helps assess an organization's current overall cybersecurity posture and identify potential critical vulnerabilities, in four categories of risk: Compromised Systems, Organizational Diligence, User Behaviors and Public Disclosure.

Bitsight Advisory Service – enables policyholders to request a consultation with Bitsight to review the findings of the Security Ratings report in more detail.

Enabled Client Access (ECA) – an on-demand dashboard view of the insights from the

Security Ratings report that allows a policyholder a continuous view of their attack surface. This allows the policyholder to:

- Investigate cybersecurity events and remediate issues
- Validate and manage the digital assets associated with the organization
- Review findings for more details and remediation information
- Contact the Bitsight Advisory team to provide feedback and/or updates on remediation statuses

Getting started.

We're looking for your participation and support in obtaining the direct **cybersecurity contact information for all cyber insureds**, including an individual's name, job title and company email address.

Examples include contacts like a Chief Information Security Officer, Head of Risk Management or Head of IT whose email domain aligns with the website provided with the most recent submission to The Hartford.

Once an individual is identified and their information is collected, we'll send this individual the Enabled Client Access invitation and then use them as the main point of contact for all cybersecurity alerts, critical vulnerabilities detected and remediation suggestions.

Please email cybersecurity contact information to
cybersec@thehartford.com

Third-party service providers discussed herein, though not affiliates of The Hartford, are pre-approved by The Hartford to provide cyber-related services. You are not required to avail yourself of their services. Sharing any information with any such vendor is at your sole discretion. References to any vendor are provided for your convenience only and are not intended as a substitute for your own due diligence and selection of vendors to suit your company's needs. The vendors are independent contractors that charge their own rates. Discounted rates offered by any vendor are not offered by The Hartford, nor on any premium for a policy of insurance. Any such vendor discount is subject to change without notice and is not guaranteed by The Hartford. The Hartford does not warrant the performance or services of the vendors or their websites. The Hartford assumes no responsibility for the control, correction or legal compliance of your cyber security measures or other business practices and operations. Notice of any claim, act, fact or circumstance to a vendor does not constitute notice thereof to The Hartford. Approved vendors are current as of April 2025 and may change at our discretion at any time, with or without notice.

The Hartford Insurance Group, Inc., (NYSE: HIG) operates through its subsidiaries, including underwriting company Hartford Fire Insurance Company, under the brand name, The Hartford®, and is headquartered at One Hartford Plaza, Hartford, CT 06155. For additional details, please read The Hartford's legal notice at www.TheHartford.com.
