

The Hartford + Alight®: Easier Implementation, Enhanced Experiences.

Our enterprise partnership with Alight boosts efficiency and engagement through smart integrations.

Integration solutions to reduce complexity.

Integrated Evidence of Insurability (EOI) Experience

Single-Sign On (SSO) makes the EOI process easier, with an average 86% employee completion rate and decisions and statuses returned automatically in real time to the Alight platform via API.¹ Most employees receive a decision immediately upon completion.

EDI Enrollment File Feed

A single, standardized Electronic Data Interchange (EDI) file feed streamlines the delivery of enrollment information from Alight to The Hartford, eliminating the need for manual data entry and reducing downstream errors.

The Hartford makes it easier for both administrators and employees.

Easier Implementation

Enhanced processes help to significantly reduce implementation time, with no cost for setup of our products on the Alight TBA and CBA platforms.

Claim Access SSO

Single click claims access via SSO allows secure and easy access to The Hartford claims system from the Alight platform or employer intranet site.

**The Hartford and Alight:
better together.**
