

Cyber protection lets your design professional clients focus on building, not rebuilding.

Real life claims scenario: Ransomware attack

- **What happened:** A ransomware attack blocked all access to the firm's computer system and deleted files. After paying the ransom, it took the business several days to restore its applications and recover deleted files from its backup.
- **What followed:** The firm was unable to resume operations for an extended period of time and endured brand and reputation damage.
- **How we could help:** Our policy features Incident Response Expenses, Cyber Extortion Loss, Network Restoration Expenses and Business Interruption, so our customers can return to their design services as quickly as possible.

Flexible, comprehensive coverage against an ever-expanding list of cyber threats.

Our CyberChoice suite of products offers core first-party and liability coverages to ensure that when disaster strikes, firms are prepared. There's also our [Ransomware Mitigation Suite](#), complimentary services that help assess an organization's ransomware risks, remediate vulnerabilities known to result in ransomware attacks and help prevent potential ransomware incidents.

CyberChoice coverages include:

- Data Privacy & Network Security Liability
- Privacy Regulatory Matters
- Media Liability
- Incidence Response
- Cyber Extortion
- Network Asset Restoration Expenses
- Business Interruption
- Dependent Business Interruption
- Limits up to \$5M for Primary & Excess

Taking a holistic approach to cyber risk:

- Identify your risks
- Protect your firm
- Detect threats
- Respond with help from The Hartford's CyberChoice First Responders®
