Overview

The Hospital Indemnity Plan from The Hartford is designed to help defray the out-of-pocket costs associated with hospital and skilled nursing facility confinements. With policies specific to the under/over age 65 age groups and multiple coverage levels to choose from, members can help avoid the stress of high medical bills resulting from hospital stays.

This plan pays a lump-sum benefit for an insured's confinement in a hospital or skilled nursing facility. With a choice of low, medium and high coverage options, we provide flexibility for members to select the plan that best fits their needs.

For members over age 65, it also pays a daily amount for recovery services following an insured's discharge from a hospital or a skilled nursing facility.
